

The following companies are partial sponsors of the PSP '08 Annual Conference

AIP PUBLISHING SERVICES

For more than 75 years AIP Publishing Services has worked with STM publishers to reduce cost and increase revenue by streamlining their production processes and leveraging their context online. Scitation, AIP's richly featured hosting platform, allows publishers to retain their unique brand identity, while offering many flexible options and customized features. Robust solutions for Memberships and Subscription Fulfillment, as well as web-based Manuscript Submission, are also available.

For more information please stop by booth # 6 to see how AIP Publishing Services can help with your publishing needs or visit us online at www.pub4stm.org, and don't forget to enter our booth drawing for an iPod Nano!

40 Salem Street
Lynnfield, MA 01940
Tel: 781-295-0072
Fax: 781-295-0077
Email: abrand@crossref.org
www.crossref.org

CrossRef is a not-for-profit membership association whose mission is to enable easy identification and use of trustworthy electronic content by promoting the cooperative development and application of a sustainable infrastructure. It is also the official DOI registration agency for scholarly and professional publications. Our citation-linking network today covers millions of articles and other content items from several hundred scholarly and professional publishers. More information is available at www.crossref.org.

MARK LOGIC CORPORATION

Mark Logic Corporation is the provider of the industry's leading XML content server. Mark Logic works with providers of information products to accelerate new product creation, deliver products through multiple channels, integrate content from different sources, repurpose content into multiple products, build custom publishing systems, and mine content to find previously undiscovered information. MarkLogic Server does this by enabling companies to load, query, manipulate, and render XML content using the W3C-standard XQuery language.

Designed for high performance and scalability, MarkLogic Server can deliver millisecond response times against multi-terabyte contentbases. Mark Logic is privately held and backed by Sequoia Capital and Lehman Brothers. For more information or to download a free trial copy of MarkLogic Server, please visit www.marklogic.com
